

Our telephone privacy law in Indiana is WONDERFUL - please don't weaken its protection. I am so relieved to be rid of all those nonsense calls. I have peace of mind to think over problems or projects. I don't have to get up from my work and go to the phone only to find it a commercial harrassment (now if they could do something about those political harrassments!). I don't get knocked out of bed at 8 a.m. Saturday by sales calls. I don't get my meals interrupted by sellers. Now when the phone rings, I know it's actually a call I want to take - that is terrific! Please DON'T CHANGE A THING!!!
